Ryan Pacyga, defense counsel for Defendant James Joseph Graczyk (6), was excused and did not appear.

The Court held a Case Management Conference with counsel only (defendants not present) and discussed the status of discovery, the Second Amended Case Management Order (ECF No. 189) and any additional time needed to produce and review discovery. Based on the government's anticipated disclosures of hundreds of gigabytes of electronic materials, and on the large number of co-defendants in this matter, defense counsel made an oral motion to designate the case as complex for purposes of the Speedy Trial Act. The government did not object. The Court accordingly GRANTED the oral motion and designated the case as complex.

Defense counsel further agreed that a continuance of the pretrial motions and trial deadlines outlined in the Second Amended Case Management Order is necessary, requesting a February 2025 trial deadline and commensurate continuances of the motions deadlines. The government does not object to the proposed continuance.

The Court took Defendants' request for a continuance under advisement and will issue a Third Amended Case Management Order with a new schedule after Defendant Coyle (5) makes his initial appearance, which is currently scheduled for August 28, 2024. If counsel requires more time to prepare and file motions after the Third Amended Case Management Order is issued, all parties should meet and confer and file a coordinated motion.
